Trendy bucket full of invertebrates

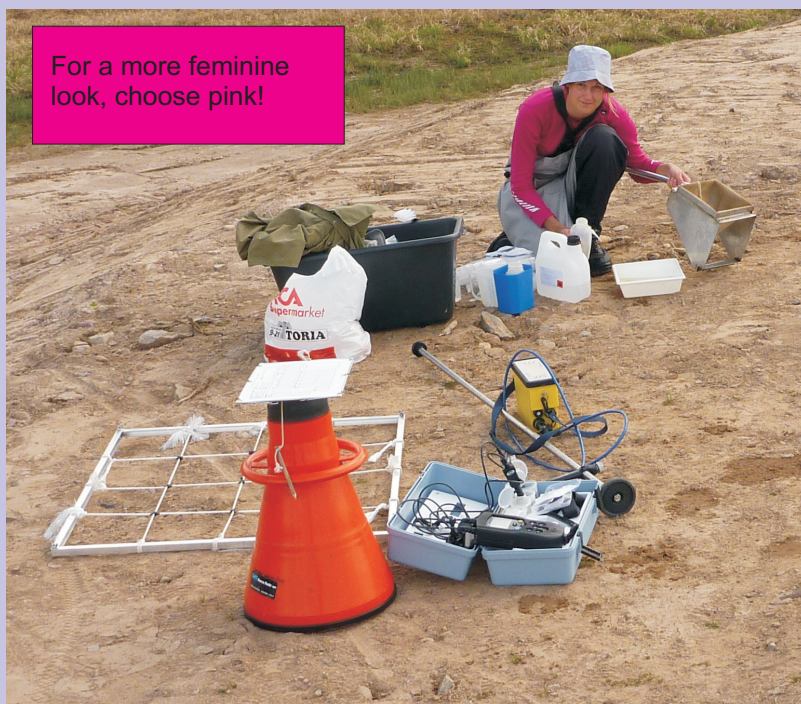

Small dog in bag?
So yesterday!

Why have just one pet
when you can have a
whole bucket full of them?

This
summer's
most popular
hair
accessories:
Pine needles
and spiders!

For a more feminine
look, choose pink!

As we can see on all our models the
make up of this season in very
natural...or shall we say non existing?

Layer,
upon layer
upon layer.

Shirt, warmer
shirt, jacket,
rainjacket.

Observe that
the water
velocity meter
is equipped
with its own
rain protection
ingeniously
created with a
plastic bag and
red sticky tape

The delightful hat can be worn with the brim folded down
or up, depending on mood and weather conditions.
